

Spooner Industries Limited are committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work.

Wherever possible the Company will:

- Maintain full compliance with all national environmental legislation and where practicable, improve upon statutory requirements.
- Aim to reduce the impact on the environment from our operations.
- Use renewable resources in a sustainable manner, and work to minimise its impact on non-renewable resources.
- Minimise waste by value engineering, material re-use and recycling methods.
- Ensure a commitment to pollution prevention through the correct handling, storage and management of raw materials, products, and waste.
- Promote to all external interested parties associated with its business, including, suppliers and customers, the need for compliance within this policy and due consideration of the environment.
- Promote responsibility for the environment within the organisation and communicate and implement this policy with all employees.
- Provide sufficient management time and other resources to ensure the implementation of this policy.
- Meet its obligations with regard to providing publicly available environmental information to its customers.
- To implement an effective management system including managing the environmental impact of all aspects of the company in accordance with ISO 14001
- Make this policy available to the public on request.

Chief Executive Director

Mr S Clarke
